Revision No: 001
Art No: WC-BR500

Brake and Clutch Cleaner Spray

Engineered for professional automotive and industrial maintenance, Weicar Brake & Clutch Cleaner rapidly dissolves and removes grease, oil, brake fluid, and stubborn metallic dust from braking systems and clutch components. Its high-performance, fast-drying formula ensures optimal friction and restores peak braking efficiency without leaving any residue behind.

Areas of Use: Brake rotors (discs) and calipers, Brake pads and sliding pins, brake drums, shoes, and wheel cylinders, clutch discs (friction plates) and pressure plates, flywheels, ABS wheel speed sensors.

Net Weight	342gr
Gross Weight	430gr
Volume	500ml
Package	24pcs
Pallet	1920pcs
Pallet Dim	100x120x215h
Shape	Aerosol Can
Barcode(EAN)	0700343203716

Directions for Use: Shake the aerosol can well before use. Ensure the working area is well-ventilated and all components are cool to the touch before application. Spray generously onto the contaminated parts from a distance of 15–20 cm. Allow the heavily soiled liquids to run off into a designated catch pan. For extreme buildup, repeat the application or wipe with a clean industrial cloth. Allow the components to air dry completely before reassembly or operation.
Technical Note: While highly effective on bare metals, avoid prolonged contact with sensitive painted surfaces, decorative plastics, or unshielded rubber seals.

Hazard Pictograms:

Storage Conditions: Store in cool and ventilated area. Recommended storage temperature: 15 - 30 °C. Keep out of reach of children.
