Directions for Use: Before general application, test on a small, hidden section of the surface to check for colorfastness. Spray the product onto the targeted surface from a distance of approximately 15 cm. Allow it a brief moment to react, then wipe thoroughly using a clean, lint-free cotton or microfiber cloth. For carpet extraction machines, dilute the cleaner with water at a ratio between 1:5 and 1:20 depending on the level of dirtiness.
