Revision No: 001
Art No: WC-MPS500

Multi Purpose Spray

Weicar Multi-Purpose Spray is a unique problem solver that protects metals against rust and corrosion, quickly penetrates seized mechanisms, repels moisture, and lubricates. It also instantly silences even the toughest squeaks; and perfectly cleans heavy oil, dirt, and stubborn adhesive residue from surfaces. t repels moisture: It quickly penetrates wet and damp surfaces, removing water and preventing short circuits in electrical contacts and motors. It forms a protective barrier.

Areas of Use: By reducing friction, it instantly and permanently eliminates annoying noises in doors, windows, rails, and moving mechanisms. IIt dissolves residues such as grease, tar, gum, and label adhesive on metal surfaces without damaging them. It penetrates deep into seized or stuck nuts, bolts, locks, and fasteners, allowing for easy removal due to rust and corrosion. It loosens hand tools, chains, gears, and hinges that have become stuck over time.

Net Weight	342gr
Gross Weight	430gr
Volume	500ml
Package	24pcs
Pallet	1920pcs
Pallet Dim	100x120x215h
Shape	Aerosol Can
Barcode(EAN)	0700343203730

Directions for Use: Shake the can well before use. Thanks to the special valve design, you can safely apply the product even upside down (360°) if needed. For spot and narrow area applications, attach the red applicator wand provided with the can to the spray activator. After applying to the target surface, wait a short time for the product to penetrate deeply.

Technical Note: Motorcycle / Bike Chains: It dries out rubber rings (O-rings) and strips away factory grease. Door Locks: It can attract dust and grime, gumming up the internal mechanisms over time. Sensitive Plastics & Rubber: The solvents can degrade, melt, or dissolve certain rubbers and plastics.

Hazard Pictograms:

Storage Conditions: Store in cool and ventilated area. Recommended storage temperature: 15 - 30 °C. Keep out of reach of children.
