Rust Remover Spray

Weicar Rust Remover Spray is a high-performance technical chemical developed for industrial and automotive applications, offering cleaning, lubrication, and protection functions all in one. It deeply dissolves and loosens heavy oil, grease, adhesive residues, and stubborn, hardened stains on surfaces. It minimizes friction, permanently eliminating squeaking noises; ensuring quiet, smooth, and efficient operation of moving parts.

Areas of Use: For removing stuck lug nuts, bolts, and engine parts; for lubricating door, trunk, and hood locks and hinges; for preventing corrosion caused by saltwater and moisture; for loosening industrial valves, construction elements, and hand tools stuck due to rust; and for squeaky hinges on house/office doors and windows, and sliding rail systems.

Net Weight	342gr
Gross Weight	430gr
Volume	500ml
Package	24pcs
Pallet	1920pcs
Pallet Dim	100x120x215h
Shape	Aerosol Can
Barcode(EAN)	0700343203761

Directions for Use: Shake the can well before use. Thanks to the special valve design, you can safely apply the product even upside down (360°) if needed. For spot and narrow area applications, attach the red applicator wand provided with the can to the spray activator. After applying to the target surface, wait a short time for the product to penetrate deeply.

Technical Note: Rust removers can be corrosive to certain metals and damage surrounding plastics, painted surfaces, or fabrics. Always test a small, inconspicuous area first.

Hazard Pictograms:

Storage Conditions: Store in cool and ventilated area. Recommended storage temperature: 15 - 30 °C. Keep out of reach of children.

In Case of Emergency Consult to MSDS
